IIRS ISRO Nodal Center

Report on
Certificate Course of
"Fundamentals of Remote Sensing and GIS Technology (Course in Hindi)".
Held online during 14th September to 28th September 2022.

Overview:

The Fundamentals of Remote Sensing and Geographic Information Systems (GIS) Technology (Course in Hindi) Certificate Course was conducted by the IIRS ISRO MMCC Nodal Center during 14th Sept. to 28th Sep. 2022 The course aimed to provide participants with a comprehensive understanding of remote sensing principles, GIS applications, and their integration for various environmental and geospatial analyses.

Objectives:
- To introduce participants to the basic principles and concepts of remote sensing.
- To familiarize participants with the fundamentals of Geographic Information Systems (GIS).
- To demonstrate the integration of remote sensing and GIS for spatial analysis and decision-making.
- To provide hands-on experience with popular remote sensing and GIS software tools.
Participants:
A total of 10 students have successfully completed the course.

Course Content:
The course curriculum was structured to cover the following topics:
- ➢ Introduction to Remote Sensing
- ➢ Remote Sensing Platforms and Sensors
- ➢ Image Interpretation Techniques
- ➢ Basics of GIS and Spatial Data
- ➢ Data Acquisition and Pre-processing
- ➢ Spatial Analysis and Modeling
- ➢ Applications of Remote Sensing and GIS
- ➢ Hands-on Training with Software Tools (e.g., ArcGIS, QGIS, ENVI, ERDAS Imagine)

Methodology:

The course employed a combination of lectures, practical demonstrations, hands-on exercises, and interactive sessions to facilitate learning. Participants were provided with study materials, software tutorials, and datasets to reinforce their understanding. Experts from ISRO were to provide insights into real-world applications and advancements in remote sensing and GIS technology.

Outcomes:

Upon completion of the course, participants gained a solid foundation in remote sensing principles, GIS techniques, and their integration for spatial analysis. They developed practical skills in handling remote sensing data, performing geospatial analyses, and generating meaningful outputs for decision support. The hands-on training sessions equipped them with the necessary proficiency in using popular software tools for remote sensing and GIS applications.

Conclusion:

The Fundamentals of Remote Sensing and GIS Certificate Course conducted by the [Nodal Center Name] proved to be a valuable learning experience for participants, empowering them with knowledge and skills essential for tackling diverse environmental and geospatial challenges. The course received positive feedback from attendees, highlighting its relevance, comprehensiveness, and practical applicability in their respective fields.

Time: 10.30 am to 12.00pm

Venue: Dyaneshwar Hall

We signed an MOU with SKILLETZ foundation under collaboration we conducted entrepreneurship program for our students. This was introduced to our third year students which consist four stages ideation stage ,start ups ,Established Startups, Expansion. Entrepreneurship Development Programme which is primarily meant for developing those first generation entrepreneurs. Total 368 students took benefit of the session.

ENTREPRENEURSHIP DEVELOPMENT PROGRAMME –This programme was conducted to help a person in strengthening his entrepreneurial motive and in acquiring skill and capabilities required for promoting and running an enterprise efficiently. It is conducted with a motive to promote potential entrepreneurs, understanding of motives, motivational pattern, their impact on behaviour and entrepreneurial value is termed as entrepreneurial development programme. It is an effective way to develop entrepreneurs which can help in accelerating the pace of socioeconomic development, balanced regional growth, and exploitation of locally available resources. It also equips entrepreneurs and makes them competent to anticipate and deal with a variety of problems that any entrepreneur may have to face. It gives confidence to the entrepreneur to face uncertainties and take profitable risks. It prepares them to deserve and make good use of various forms of assistance. EDPs provide opportunities for self employment and entrepreneurial careers.

Empowers New Generation Entrepreneurs : EDP, by inculcating entrepreneurial capabilities and skill in the trainees, create new generation entrepreneur who hitherto was not an entrepreneur Area of Entrepreneurship Development skilletz has been a pioneer in espousing

social and economic entrepreneurship since 2018.It is a training institute in the core area of entrepreneurship development. It works as a facilitator and guide for the creation and cultivation of the entrepreneurial spirit and the concept of 'self-employment' in a nation that is largely driven by third party employment. At skilletz there is always the hummable buzz of people discussing, brainstorming, making plans and revamping shelved ideas. The thrum of work and the exciting buzz of activity is an indelible part of the work culture.

INFOSYS' DIGITAL LITERACY INITIATIVE

Infosys
Springboard

Infosys Springboard Overview

In alignment with the Infosys' ESG Vision 2030, the initiative for enabling digital skills at scale, Infosys Springboard (https://infyspringboard.onwingspan.com) has been identified as a flagship intervention to empower people, communities, and society. Through this initiative, Infosys plans to empower over 10 million people with digital and life skills by 2025. The reach will include students across India in the age group of 10-22 years as well as lifelong learners.

Infosys Springboard is powered by Infosys Wingspan, our integrated digital learning and collaboration platform and includes learning content developed by Infosys and leading content providers, spanning digital, emerging technologies and life skills. For a holistic learning experience, the platform has technology and soft skills playgrounds, programming challenges, and social learning features. The program is led by a dedicated team of experts collaborating with the Education Training and Assessment (ETA) department, NGO partners, and established networks of identified educational Institutions.

Soon, Infosys Springboard will be available in major Indian languages. As of now it is available in English, Hindi, Tamil, Telugu, Kannada and Marathi. Dedicated Maker Labs are planned in major Indian cities to provide hands-on learning opportunities in the emerging technologies.

We are also in the process of setting up Makers Lab on wheels to ensure even remote schools of Indian villages can also get access. We are glad to share that there are about **1.49 million plus** learners across India registered on the platform and getting benefited. We have also recently concluded Infosys flagship program, Catch Them Young 2021 for school kids above 6th grade, which was attended by 10000+ school students across India.

Infosys Global Education Centre - Mysore

As a part of Infosys Springboard program, we have launched various new learning initiatives and new capabilities in the platform:

• Infosys CodersZen, for learning programming languages Java, Python, C#, Javascript and more.

• Soft skill training sessions like 'Aspire & Achieve' and 'Career Compass' for aspiring graduates

• Domain Masterclass sessions by Infosys experts providing industry overview of various verticals like Banking, Space Network, Retail etc.

• 'Wonder Girl' sessions to provide essential perspectives, mindsets and skills required for girls to blossom in the present world.

• 'Industry expert led 'Certification course in 5G' in collaboration with MBITS college, Kerala and DRJ Telecom, USA.

'Her Journey to Success' – a women specific channel with courses related to women development, leadership and wellness

• Virtual / digital classroom capabilities which can be leveraged by the institutions to conduct your regular online classes.

• Video Proctored Exam / Assessments environments which can be used by institutions to conduct online test.

• 494+ courses from Coursera available to all learners.

All the above features including Telemetry, customized microsite, Virtual Digital Classrooms and Video proctored Exam environments are available on free of cost for institutions to leverage.

Educational institutes can make use of the wide range of content (3900+ courses) which is already available on the platform

Ref. No. : MMM/MMCIII/2020-21/Cert/03

Date : 25·07·2022
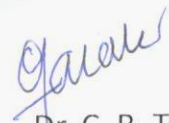

To whomsoever it may concern

Marathwada Mitramandal's College of Commerce (MMCC) have MOU with Foundation for MakeItHappen Center for Invention, Innovation and Incubation (MMCIII) on date 9th July 2021.

Highlighted points of the MOU for AY 2021-2022 are:

1) To bridge the gap between Institute and Industry.

(2) To Motivate and guide students those who are interested to startup their business/Startups.

(3) To provide industry level training to enhance the skillset and overall development of the students.

(4) MMCIII center have 35 startups in different domains, so these startups required some interns as well as an employee; so, here MMCC students will get direct benefit of working with company as well as employment in companies.

This is a good initiative taken by the Marathwada Mitramandal's College of Commerce (MMCC). Hope this MOU will help them to move forward up to some extent.

Notice

The Department of Computer Science in collaboration with CIII center MMCOE and TATA technology is organizing a 24 hours paid course on "3D Printing-Additive Manufacturing with reverse Engineering". The course is scheduled from 19/09/2022 to 25/09/2022.

OUTCOME FROM COURSE:

1) Course completion certificate from TATA Motors
2) Hands - On training for better placement opportunities.(as there is demand for this technology)
3) 2 credits for the course
4) Life-time Facility of using MMCOE CIII center lab.
Interested students should contact Prof. Swati Shelar before 07-09-2023 till 4.00 pm.

Workshop Report:
Additive Manufacturing with Reverse Engineering - 3D Printing

In collaboration with the CIII Center, our college organized a workshop on Additive Manufacturing with Reverse Engineering - 3D Printing, aimed at equipping students with advanced technological skills in the field of engineering. The workshop was conducted in two batches, with a total of 28 students benefiting from this enriching experience.

Workshop Details:

1st Batch (7th June 2022 - 15th June 2022):

- The first batch of 10 students participated in the workshop, which ran from the 7th of June 2022 to the 15th of June 2022.
- The sessions in this batch covered fundamental concepts of Additive Manufacturing, Reverse Engineering, and 3D Printing.
- Hands-on practical exercises allowed students to apply their newfound knowledge, creating tangible objects using 3D printing technology.
- Instructors and facilitators provided personalized guidance to ensure a comprehensive understanding of the subject matter.
- Participants actively engaged in group discussions and problem-solving activities, fostering a collaborative learning environment.

Students are gaining knowledge in Hands on Training session: 3D printing
Students are gaining knowledge of new technology: Hands on training on 3D printing

2nd Batch (19th September 2022 - 25th September 2022):

- The second batch comprised 18 students, and their workshop took place from the 19th of September 2022 to the 25th of September 2022.
- Building upon the foundation laid by the first batch, the second batch delved deeper into advanced applications of Additive Manufacturing and Reverse Engineering.
- Participants were encouraged to work on real-world projects, applying their skills to solve engineering challenges.
- The workshop emphasized the importance of innovation and creativity in leveraging 3D printing technology for engineering solutions.
<u>Students are very happy after the completion of Certification in 3D Printing course</u>
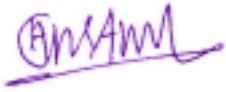

Outcomes and Benefits:

● A total of 28 students from diverse engineering disciplines completed the workshop.

● Participants gained a comprehensive understanding of Additive Manufacturing, Reverse Engineering, and 3D Printing, enabling them to explore new dimensions in their chosen fields.

● The hands-on experience allowed students to design and fabricate prototypes, fostering practical skills that will be invaluable in their future careers.

● Exposure to cutting-edge technology has made our students more competitive in the job market, as they are now equipped with skills highly sought after by industries. The collaboration between our college and the CIII Center in organizing the Additive Manufacturing with Reverse Engineering - 3D Printing workshop has been a resounding success. A total of 28 students have benefited from this initiative, enhancing their engineering skills and preparing them for promising careers in the rapidly evolving field of advanced technology. We look forward to

further collaborations and workshops that empower our students with the knowledge and skills required to excel in their respective fields.
